PNEUMATIC AFTER COOLER

AC 300

MACHINE DIMENSIONS
Length x Width x Height:
27 in x 21 in x 44 in
(69 cm x 53 cm x 111 cm)
Weight: 138 lb (63 kg)

Compliant with the EU Machinery Directive (CE) and UL Design Standards

MAX INLET AIR PRESSURE
300 psi (20.6 bar)

MAX INLET AIR TEMP
300ºF (149º C)

POWER REQUIREMENTS
Pneumatic Controlled

WATER SEPARATOR
5 Micron Element

- Includes a water separator and 5 micron particulate filter
- Heavy duty wheels for easy maneuvering and portability
- Prevents dry ice condensation and bridging
- No pneumatic lubrication required

Using a portable diesel air compressor, that emits hot and humid air, can affect the quality of your dry ice and hinder the efficiency of your blasting setup. The Cold Jet After Cooler is specifically designed to cool the air and eliminate moisture, resulting in enhanced performance.
